FYI,

All personnel have demobilized from the Grand View response and EPA assets have been returned to the Logistics Center. Brad Martin and Valerie Cramer will remain on call through the end of the duty week.

Have a great holiday,  
David

**Subject:** START ER Deployment - US Ecology Explosion, Grandview, ID

All:

FYI- there are currently two START staff (Burford, Nordeen) deploying to Grandview, Idaho to support FOSC Ball at the US Ecology Explosion site. EPA assets deployed include MultiRAE Pro and hand held Dustrak. Additional START staff have been notified and are available to provide support as needed.

If any of the deployed staff have project work due to you in the near future or if you have an immediate project need, please let me know and I will find some support.

Thanks in advance for your understanding.

Regards,  
Brad
